

FREE KICKS: Setting the Wall

SETTING THE WALL

- > The Goalkeeper should line up the wall with one of the end players in the end of the wall lined up directly in line with the near post
- > The Goalkeeper should stand behind the near post while lining up the wall
- > This end of wall player should face the goalkeeper with his or her arms locked with the rest of the wall players
- > All players in the wall should have their arms locked until the near post is covered
- > The number of players in a wall depends on the level of play and should be up to the discretion of the Goalkeeper
- > Above is a general rule of thumb for 11v11 soccer (subtract 1-2 players for 8v8 soccer)
